

# Creative Web Developer

Rorisang Kedijang

## Professional Profile

Creative Web Developer and BSc (Hons) Creative Computing (Web Technologies) graduate from Bath Spa University (2026), specialising in front-end development, UX/UI design and interactive digital experiences. Delivered two commercial client projects end-to-end and served as Creative Lead on a collaborative e-commerce brand launch, alongside creative coding work spanning React, TypeScript, Node.js and Three.js. Combines engineering rigour with strong visual design instincts to build polished, accessible, brand-driven web experiences.

## Work Experience

### Freelance Creative Technologist — MIH Healthcare Technologies | *Moloele Investment Holdings* 2026

- Designed and developed the full company website and brand identity for a healthcare investment firm — custom SVG logo, culturally-informed Setswana geometric pattern system and navy/teal/gold design language.
- Built a responsive front end with HTML5, CSS3, Bootstrap 5 and Vite, plus a Node.js/Express back-end handling client enquiries with automated email delivery via Nodemailer.
- Managed the engagement end-to-end: gathering requirements, presenting design directions to stakeholders and iterating on feedback through to delivery.

### Freelance Front-End Developer — Perceptor Interactive Pitch | *MangoMoon × MIH Consulting* 2025

- Designed and developed an interactive, scroll-based pitch website for a knowledge management platform, with animated section transitions and live stat counters — live at [perceptor.netlify.app](https://perceptor.netlify.app).
- Translated complex product concepts (semantic search, audit trails, knowledge capture) into clear visual storytelling and interactive UI components, aligned to the MangoMoon brand identity.

### Kitchen Assistant — Hotel Indigo, Bath, UK June 2024 – Oct 2024

- Worked reliably under pressure in a fast-paced team; maintained hygiene standards and managed stock and deliveries.

### Receptionist / Personal Assistant — Dimela Health Pharmaceuticals, Johannesburg, SA May – Jul 2022

- Supported senior management with reports, presentations and scheduling in a corporate healthcare environment.

## Selected Projects

### Soniq Space — 3D Audio-Reactive Visualiser Three.js, Web Audio API, Node.js, MongoDB

- Built a real-time 3D sound visualiser using FFT audio analysis, with customisable rooms and server-side persistence via Express, MongoDB and REST APIs; deployed live at a university showcase event (20–30 attendees).

### Plandria — Sustainable E-Commerce Brand (Creative Lead, Group Collaboration) Node.js, MongoDB, Stripe, JWT

- Served as Creative Lead in a collaborative team project for a sustainable candle-to-plant-pot brand: designed the logo and brand identity, built the full-stack e-commerce website and ran the brand's social media presence.
- Developed the e-commerce platform with Stripe payments, JWT authentication, dual light/dark theming and an admin dashboard, coordinating with teammates on product and content — live at [plandria.co.uk](https://plandria.co.uk).
- Displayed product and website live, at Bath digital festival

## Education

### BSc (Hons) Creative Computing — Web Technologies | *Bath Spa University, UK* 2023 April- July 2026

- Responsive web design, creative coding, React & React Native app development, UX/UI design and interactive media, high-fidelity Figma prototyping, C++/OOP fundamentals.

### BA Game Design — Year 1 | *Eastern Mediterranean University, Cyprus* Transferred 2022-2023

- Transferred from Game Design in Cyprus to current programme with 120 credits awarded; visual communication (Illustrator, Photoshop) and academic research.

### National Senior Certificate (IEB) | *Hilton College, South Africa*

## Professional Skills

**Front-End:** , HTML5, CSS3, Tailwind CSS, Bootstrap 5, Responsive Design, Web Accessibility

**Creative & Interactive:** Three.js, React Three Fiber, Vite, p5.js

**Back-End & Data:** Node.js, Express, MongoDB, REST APIs, JWT authentication, Stripe integration, cloudflare

**UX/UI & Design:** Figma, Adobe Illustrator, brand identity design, design systems, wireframing, user flows

**Tools & Interpersonal:** .git, GitHub, figma, notion
